PROFESSIONAL

## WELCOME TO NESPRESSO PROFESSIONAL

Small start-up or large enterprise? Quality hotel or refined restaurant? **Nespresso Professional** offers tailor-made solutions to make it easier to run your business. Discover, savour, enjoy!

# COFFEE WITH A POSITIVE IMPACT

Certified

Corporation

**NESPRESSO**  
IS PROUD TO  
BE B CORP™  
CERTIFIED

The **B Corp™** certification guarantees that **Nespresso** complies with particularly strict social and environmental standards.

**B Corp™** certification is much more than just a label. This certification reflects 30 years of sustainability efforts, and it inspires us to continue this journey together.

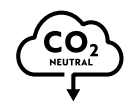

With **Nespresso Professional**, you don't just choose exquisite coffee. You also gain a reliable partner that supports your company values. Our journey towards a more sustainable world began more than 30 years ago. We are convinced coffee can make a difference and we endeavour to leave a positive impact on people, animals and the environment. These conscious choices increasingly pay off.

Caring for the climate. We do everything we can to reduce and compensate our CO<sub>2</sub> emissions. We have already planted more than 6 million trees between 2014 and 2021. We use energy-efficient transport and work together with local partners such as bpost to reduce our ecological footprint as much as possible. Successfully, because we have been CO<sub>2</sub> neutral since 2022 and we are going to great lengths to achieve net zero emissions by 2050.

Caring for communities. We are convinced that coffee farmers deserve a fair price for all their expertise, care and passion. Since 2003, we have applied the principles of the **Nespresso AAA Sustainable Quality programme**, striving to achieve the very best quality coffee. Today, more than 140,000 farmers from 15 different countries are part of this programme. This allows them to improve their standard of living, increase their resilience and obtain a sustainable income.

Caring for nature. We are accelerating the transition towards regenerative agriculture. We put environmental activities at the heart of our coffee production and support farmers in applying new methods to mitigate climate change. Within the **Nespresso AAA Sustainable Quality programme**, we can count on the **Rainforest Alliance** for its expertise. Over 92.5% of our coffee now originates from this programme.

Our ambitions are high. We are conscious that we still have a long way to go, but small steps lead to big changes. This means that you can enjoy your **Nespresso Professional** coffee moments with peace of mind. Because with every cup, you generate a positive impact on nature and society.

## WHY ALUMINIUM?

Did you know that aluminium is infinitely recyclable? Industrial production started in the 1880s and 75% of all aluminium produced is still reused today. This durable material retains its technical properties over time. No matter how often it is recycled, in whatever form.

### ALUMINIUM PRESERVES THE DELICIOUS AROMAS OF YOUR COFFEE

Our capsules are made from aluminium. A conscious choice, because it protects your coffee from air, sunlight and moisture. It preserves the delicious aromas of your coffee so much longer. To this day, aluminium is the most suitable material to serve you quality coffee.

But what happens to your used capsules? The aluminium is given a second life in everyday objects. New capsules, for instance, cans, bicycles or pocket knives. The coffee grounds are converted into compost for agriculture and horticulture on the one hand, and biogas for the transport sector on the other. The possibilities are endless.

- 1 Food grade PE/PET coating
- 2 Aluminium foil
- 3 Roasted and ground coffee

## GREAT NEWS!

### YOUR **BLUE BAG** WELCOMES YOUR USED **NESPRESSO** CAPSULES

No need to wait for your **Nespresso** recycling bag to be filled to give it to your delivery person. From now on, all you have to do is empty your used capsules container from your machine directly into your blue bag. A good reason to recycle even more with us.

**THANK YOU INFINITELY!**

### RECYCLING BAGS

Throw your used capsules into our recycling bags. Once filled, simply hand it to your PostLU delivery person or bring it to one of our **Nespresso** Boutiques in Luxembourg. Your capsules will then be recycled.

**COULDN'T BE EASIER!**

#### SMALL RECYCLING BAG

- Capacity: 200 capsules.

#### LARGE RECYCLING BAG

- Capacity: 900 capsules.

#### SMALL RECYCLING CONTAINER

- Capacity: 160 capsules.
- Can be used with or without a recycling bag.

# DISCOVER OUR QUALITY COFFEES

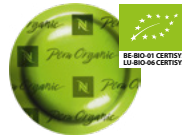

There is much more to a **Nespresso** capsule than meets the eye. There are countless stories of people who go the extra mile to offer you a delicious cup of coffee. All together, we set the bar high in every phase of the coffee process. We manually pick perfectly ripe coffee berries, expertly compose connoisseur blends and carefully roast the coffee beans. The result is a cup of coffee with a generous crema, exquisite aromas and extraordinary flavours. Pure perfection, cup after cup.

# ORIGINS

A selection of **Origins** coffees, each echoing the land it is growing on and the farming practices and the care it receives.

ORGANIC

**PERU ORGANIC  
FRUITY AND ELEGANT  
Intensity 6**

Our first organic coffee. The combination of Peru's high altitude and microclimate, together with the natural agricultural practices and good care by the producers, result in a subtly balanced and fruity coffee with delicate aromatic notes of toasted cereals.

**COLOMBIA ORGANIC  
TOASTED CEREAL AND WINEY  
Intensity 6**

A harmonious and sweet coffee with bready, toasted cereals and red fruits, topped by a generous, dense crema and a lasting aftertaste.

*Seasonal coffee*  
**CONGO ORGANIC  
FRUITY AND BISCUITY  
Intensity 7**

From the rich and fertile volcanic soil of the banks of Lake Kivu, coffee growers in Congo offer you this capsule of seasonal coffee with mellow and sweet cereal notes.

RISTRETTO/ESPRESSO/LUNGO

**INDIA  
INTENSE AND SPICY  
Intensity 10**

**Origin India** stems from a noble marriage of Arabica with a hint of Robusta from southern India. This full-bodied coffee has a distinct personality with notes of spices.

**BRAZIL  
SWEET AND SATINY SMOOTH  
Intensity 4**

The combination of sweet Arabicas and yellow Bourbon Arabicas from southern Brazil gives this coffee with sweet honey and toasted cereal notes an incomparable creaminess.

**GUATEMALA  
BOLD AND SILKY  
Intensity 6**

A combination of wash-processed Robusta and Guatemalan Arabica, **Origin Guatemala** is a balanced and smooth coffee with intense dry and malty cereal notes that bring out a strong character.

Ristretto 25 ml  
 Espresso 40 ml  
 Lungo 110 ml  
 The recommended cup size is underlined  
  
 All coffees can be served with milk

# CREATIONS

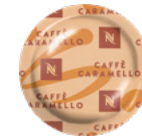

Flavoured coffee, coffee designed for milk and over-ice recipes.

## FLAVOURED

### CAFFÈ VANILIO VANILLA FLAVOURED COFFEE

A deliciously flavoured coffee with a tantalizing touch of vanilla. This blend reconciles cereal and red fruit notes, with the delightful aromas of sweet biscuits and nuts.

### CAFFÈ CARAMELLO CARAMEL FLAVOURED COFFEE

A delightful coffee experience built up around a charming caramel flavour with a touch of nuts and sweet biscuits, refined with subtle hints of cereal and red fruit.

## FOR MILK RECIPES

### BIANCO DELICATO CARAMEL AND BISCUIT NOTES

This blend has been carefully designed for a great harmony of coffee with milk. Its caramel and biscuit notes will sublimate the taste of a lightly roasted coffee.

### BIANCO INTENSO INTENSE ROASTED BUT BALANCED

This **Bianco Intenso** has been designed to be paired with milk. The meticulous split roasting of these carefully selected Arabicas reveals its cereal and nutty notes as soon as you add the sweetness of milk.

# CLASSICS

Our classic range of coffees,  
the high quality everyday coffee.

RISTRETTO

## RISTRETTO FULL-BODIED AND PERSISTENT Intensity 9

Pure and dark-roasted South and Central American Arabicas make this **Ristretto** a coffee with a dense body and cocoa notes.

## RISTRETTO INTENSO INTENSE AND SYRUPY Intensity 12

**Ristretto Intenso** is a daring blend of Robustas and Arabicas. This full-bodied coffee of exceptional intensity reveals notes of pepper and a creamy texture.

ESPRESSO/LUNGO

## LEGGERO LIGHT AND REFRESHING Intensity 6

A delicious blend of South American Arabicas and Robusta, **Espresso Leggero** adds smooth cocoa and cereal notes to a well-balanced body.

## FORTE ROUND AND BALANCED Intensity 7

Made exclusively from South and Central American Arabicas, the complex aroma of this intensely roasted Espresso balances strong roasted and fruity notes.

## DECAFFEINATO DENSE AND POWERFUL Intensity 7

South American Arabicas with a touch of intensely roasted Robusta bring out subtle cocoa and toasted cereal notes, supported by a dense body.

## FINEZZO FLOWERY AND REFRESHING Intensity 5

These Arabicas from Latin America and Ethiopia are lightly roasted for a sweet and slightly sparkling acidity, giving this large refreshing cup a full bouquet of floral notes.

## INTENSO INTENSELY ROASTED Intensity 8

**Intenso** combines intensely roasted Arabicas with a hint of Robusta. Its bold roasted notes enthral you until the very last drop.

Ristretto 25 ml

Espresso 40 ml

Lungo 110 ml

The recommended cup size  
is underlined

All coffees can be  
served with milk
