

MEET ROZUM CAFÉ

Today's most advanced
robotic coffee point

ROZUM CAFÉ PRO ROBOTIC BARISTA

We're automating the coffee shop industry, using robotic arms to deliver consistent, high-quality beverages

Experience the future of coffee with Rozum Café, our advanced robotic system that delivers specialty beverages around the clock.

This is no mere vending machine; it's a robotic arm crafting coffee with the skill of a human barista.

A coffee's flavour depends on many factors including proportions, grinding, pressure, etc. We invited the prize-winning barista Denis Obodets to fine tune them for Rozum Café's menu settings.

His championship-winning recipes and best practices are built into the robot coffee maker. That means Rozum Café robot baristas are programmed to use top coffee equipment and the world's best beans to brew coffee that is systematically great.

We've partnered with the world's best equipment brands so that our robotic barista can craft the perfect cup of coffee, every time.

HIGH EFFICIENCY

- In 12 hours (full autonomous performance) up to 250 cups;
- In 23 hours — up to 450 cups (1 hour maintenance is required)

PEOPLE CONCERN

- No staff turnover
- No high-cost Barista trained

COMPACT SOLUTION

- Rozum Café size is 2.5*2*2m (5 m²)

FULLY AUTOMATED

- No water & sewage connections required

what's in the box ?

The device features a lot of cutting-edge machine parts brought together in one place to ensure autonomous coffee service.

The coffee robot makes sure all these components play together.

We only use the best brands: Nuova Simonelli, Markibar, and others. Stellar quality is guaranteed!

beverages ?

This robot provides versatile drink delivery, capable of managing multiple orders, and its recipe database is remotely updatable with the latest seasonal and custom creations.

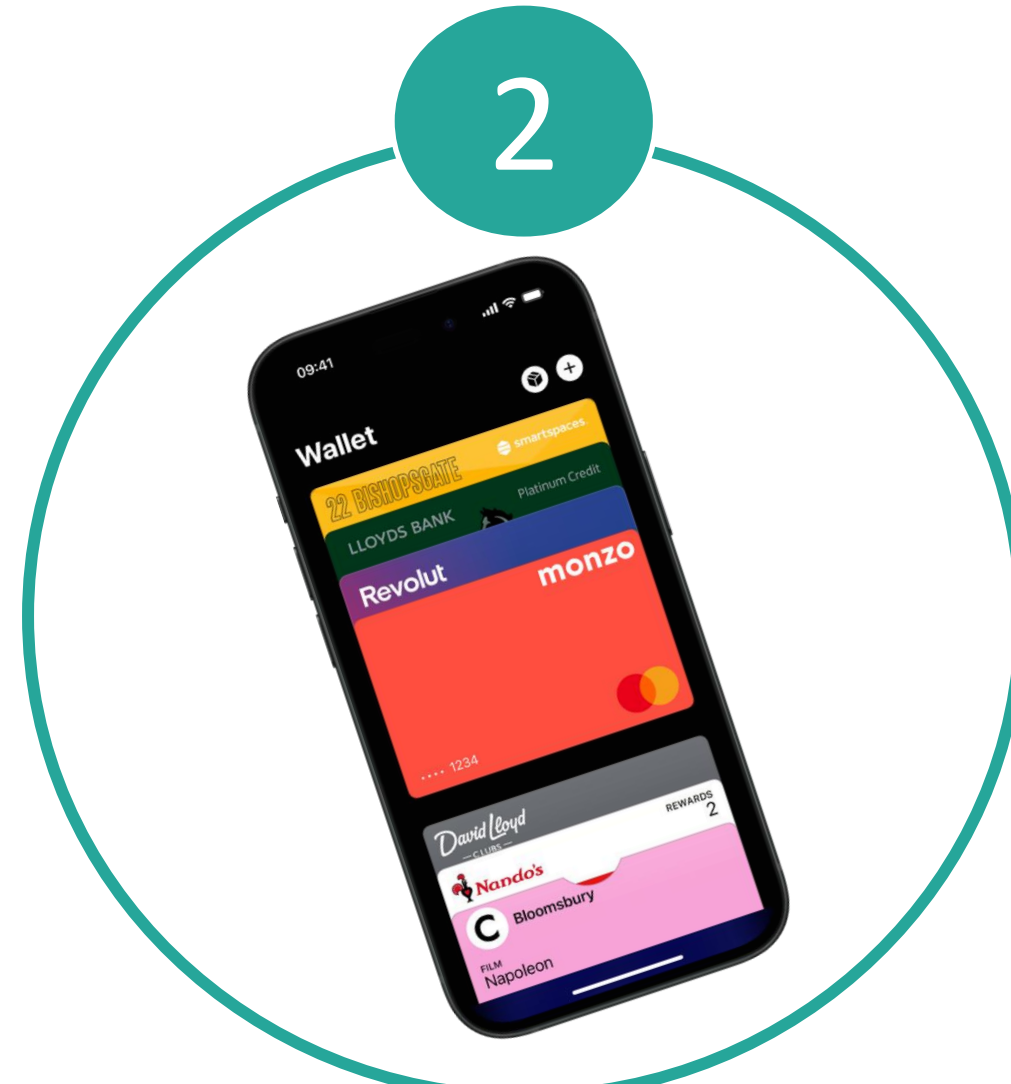

the order steps

1

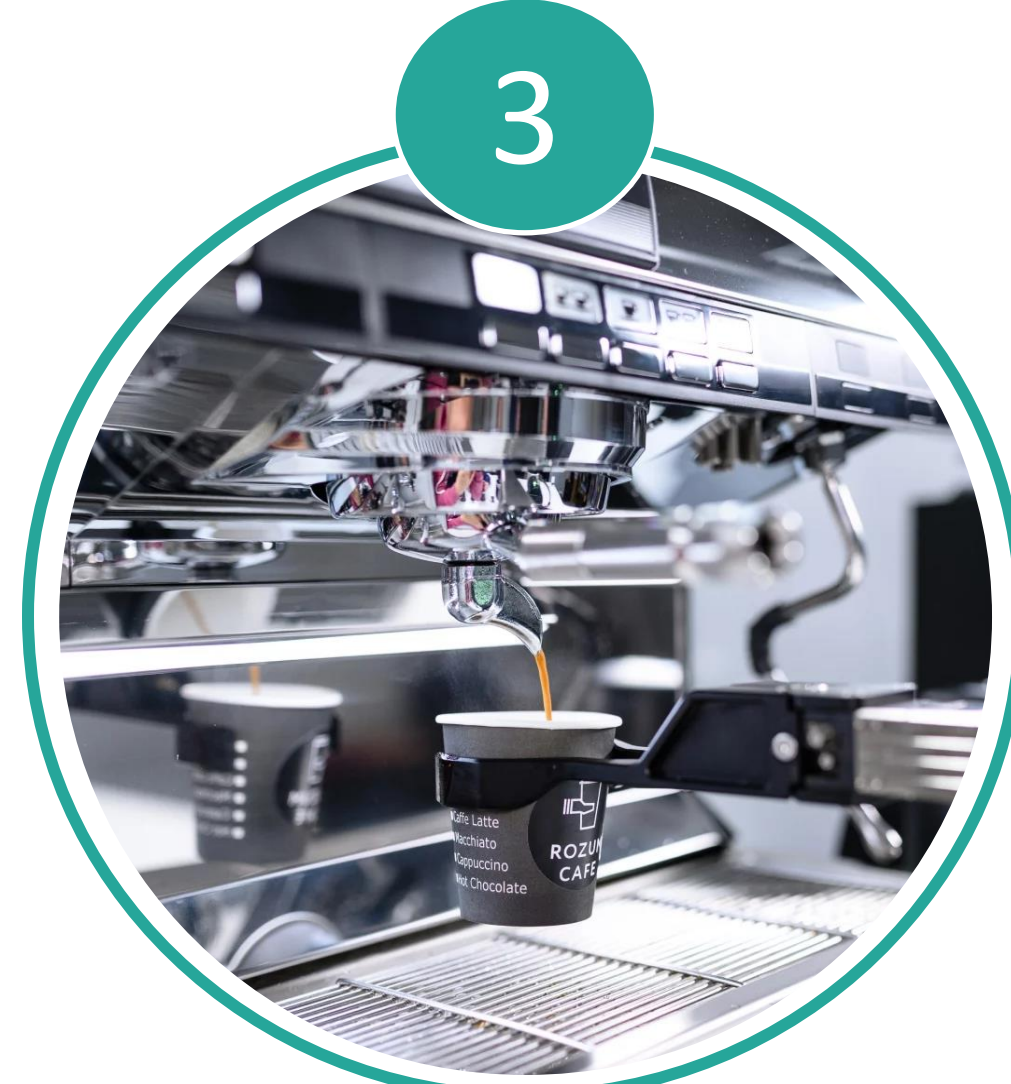

The customer selects an option via the robot's front-mounted digital display

2

We offer comprehensive payment options, including all major credit and debit cards, and contactless payments through Google Pay and Apple Pay

3

Using classic barista methods, the robot begins crafting the chosen beverage.

4

The robot provides the prepared beverage in an average time of 98 seconds

so why a robot ?

CLEAR INSIGHTS

Rozum Café comes with an intuitive, easy-to-use CRM system built in. Collect daily statistics and identify the most popular drinks in just a few clicks. Use the data to build and fine tune your long-term procurement strategy. A cloud-based software guarantees the security of your data.

EASY MAINTENANCE

No special skills are needed to maintain the robot coffee maker. Just give the robotic coffee station a quick daily check-up to make sure it will run efficiently for the whole shift. You or someone on your team can easily maintain up to five Rozum Café stations every day.

FULL SUPPORT

Every robot coffee maker comes with a 1-year warranty that can be extended upon request. Our team will ensure that your robot is always up and running and that all your "robostuff" questions or issues are handled promptly. We have support teams available to help you anytime.

ROI

The barista robot has an estimated payback period of 11 months. Download our Financial Calculator and see your own Rozum Café ROI model.

branding?

OPTION 1 STOCK MODEL OF THE ROBOT COFFEE BARISTA

You get the latest model of Rozum Café robotic coffee point with the classic Rozum brand name, design, and components set. The solution is already available in MENA and has been recently launched in Europe. An efficient and reliable choice with minimal risks.

OPTION 2 WHITE LABELLED ROBOT COFFEE BARISTA

You develop your own brand. With this option, you can white label and adapt the coffee robot kiosk's design to match your vision. We provide the technical parts and you provide the sales and marketing strategy.

The following options are available for customization:

1. Order system interface
2. Outside panels
3. Tabling
4. Logo

Just hit us with your idea, and we'll send you the catalogue of materials & colours as well as a project design for your approval.
